## **NARL Logistics joins Green Marine to strengthen its environmental commitment**

**Come by Chance, NL, February 24, 2025** – NARL Logistics, a division of North Atlantic, Newfoundland and Labrador’s largest fuel supplier, has become a participant in Green Marine, the maritime sector’s leading voluntary environmental certification program. By joining Green Marine, NARL Logistics, which specializes in storing and transferring petroleum products, renewable fuels, and renewable feedstock, is demonstrating its commitment to improving its environmental performance.

“At North Atlantic, we strive to optimize our operations to provide more sustainable logistics solutions,” stated Jamie Beach, CEO, NARL Logistics. “Joining Green Marine is a natural step forward, reinforcing our efforts toward greater environmental responsibility.”

“We are delighted to welcome NARL Logistics to Green Marine,” said David Bolduc, Green Marine International’s President & CEO. “Their commitment to sustainable operations and their strategic position in Newfoundland and Labrador’s energy sector make them a valuable addition to our program. NARL Logistics’ participation will not only enhance their environmental performance but also contribute to the broader goal of reducing the maritime industry’s ecological footprint.”

By joining Green Marine, NARL Logistics commits to measuring and continually improving its environmental performance based on stringent criteria, including air emissions, spill prevention and stormwater management, waste management, and community relations. The certification process is rigorous and transparent, with results independently verified every two years and individual results released annually.

### **About NARL Logistics**

NARL Logistics provides the storage and transfer of petroleum, renewable fuels and renewable feedstocks. Strategically located in Come by Chance at the head of Placentia Bay in Newfoundland and Labrador, the terminal is equipped with a deep-water jetty that provides seamless maritime operations. Extensive tank storage provides ample, safe and reliable capacity for a wide range of products, with a truck loading facility that offers fast and flexible land transportation options. NARL Logistics turns challenges into solutions to keep its customers’ products moving as efficiently and sustainably as possible.

### **Green Marine Overview**

Incorporated in May 2024, Green Marine International is the governance structure overseeing Green Marine and Green Marine Europe certification programs. Founded in 2007, Green Marine is the result of a voluntary effort by the shipping industry in North America to go beyond regulations. More than 190 ship owners, ports, terminals, and shipyards throughout Canada and the United States are currently participating in the program. Launched in 2020, Green Marine Europe currently has more than 30 ship owners, representing a large and diverse maritime fleet of more than 500 vessels, and four major shipyards in the program.
