

TEAM – Green Marine Europe

BIARRITZ, FRANCE

greenmarine@surfrider.eu

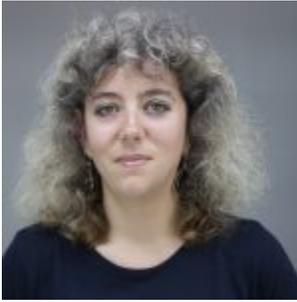

FLORENT MARCOUX, Finance Expert

As the very first coordinating link for the licensing agreement between Green Marine in North America and Green Marine Europe, Florent is responsible for the legal and financial structuring of the label.

Florent is the executive director of Surfrider Foundation Europe, which he joined in 2013. He has always worked in the societal development sector in which he has been evolving for more than 15 years in matters that include the drinking water supply in the slums of Buenos Aires, the development of education access and quality within the world's most disadvantaged countries, and protection of the ocean and its users in Europe. These experiences have helped Florent to develop a solid competence in the piloting and management of an organization and a huge appetite for human development and dialogue among stakeholders.

ANTIDIA CITORES, Project Manager

Antidia is responsible for the Green Marine Europe label. She is facilitating the emergence of this label by promoting it to stakeholders and guiding its operational implementation.

The head of the lobbying department at Surfrider Foundation Europe, Antidia holds a doctorate in law in maritime transportation's ecological transition. She oversees all of Surfrider Europe's international and European lobbying campaigns aimed at influencing public decision-makers and establishing a dialogue with businesses. Antidia is the founder and vice-president of the Ocean & Climate Platform. She is a member of the European Commission's Mission Board for healthy oceans, seas, coastal and inland waters expert group led by Pascal Lamy.

PHILIPPINE HUC, Project Assistant

Philippine is responsible for coordinating those involved with adapting the Green Marine Europe label as a European self-diagnostic tool, and dissemination of this initiative to various potential members, as well as other related communications.

In charge of dialogue with companies within the Surfrider Foundation Europe, Philippine is mobilized on missions relating to aquatic waste, water quality, and climate change with other economic stakeholders. She previously spent four years with the corporate social responsibility departments of large companies (in the retail, real estate, and consultancy sectors) and holds a master's degree from the Université Paris Dauphine in sustainable development.
